- 3 Deprecated, Old, and Orphaned Specifications
  - 3.1 Event Feed Documentation
  - 3.2 JSON Scoreboard Documentation
  - 3.3 Run Submission Interface
  - 3.4 Contest Data Package
  - 3.5 Contest Data Server
- 4 ICPC Contest Analysis Tool (iCAT)

Current Specifications

These are the specifications that will be used at the 2018 World Finals:

- Contest Control System Requirements
- General Contest API (including event feed)
- Problem Format
- Contest Data Server 2018 specification
- Event Feed 2016 (deprecated, only kept for backwards compatibility)

Draft Specifications

These specifications are still in draft, but we expect them to be released in time for use at the 2018 World Finals:

- Certification Schedule
- Contest Archive Format

Deprecated, Old, and Orphaned Specifications

These specifications are out of date, deprecated, or were never completed:

- Draft 2014 REST interface for source code fetching
- Draft 2014 REST interface for contest start

Event Feed Documentation

- Event Feed
  - Event Feed 2011 (was also used in 2012)
  - Event Feed 2013
  - Event Feed 2014 (was also used in 2015)
  - Event Feed 2016
  - Event Feed Proposal 2017
